VERITY

Garment Lot & Karigar Management

Proposed layout for your approval

Draft v0.1 | 21 October 2026

Proposed layout, not final design. Every screen shows sample data.

Please check the flow and the content. Colours and styling come later.

Words we use in this document

Lot

One batch of cloth that is cut and made into garments together, under one number.

Karigar

A skilled worker who is paid for each piece of work done.

Munshi

The clerk who writes the records. Only the munshi enters data.

Kaj

Making buttonholes. Button / Kaj means buttonholes and buttons.

Bundle

A small counted pack of pieces that moves together. How you make bundles: to confirm.

How to read this document

- Each page shows one idea. Boxes show what a screen will contain.
- Names, numbers and amounts are sample data, not your real data.
- Amber boxes marked TO CONFIRM are questions we need you to answer. Page 10 lists them.

How a lot moves from cloth to ready garments

PROPOSED SAMPLE DATA

Pieces issued, received and pending at every stage. The munshi enters every step.

1 Fabric Inward

Cloth arrives and is written in.

TO CONFIRM
What do you note?
Page 10, question 1

2 Lot Creation

Lot number
LOT-0001
Design D-101
Total pieces 500

Every lot gets its own number

3 Cutting

Issued	Received	Pending
500	500	0

Days in this stage: 2

Pending = Issued - Received

4 Stitching

Issued	Received	Pending
500	320	180

Days in this stage: 6

Pending = Issued - Received

5 Button / Kaj

Issued	Received	Pending
320	200	120

Days in this stage: 4

Pending = Issued - Received

6 Finishing

Issued	Received	Pending
200	150	50

Days in this stage: 3

Pending = Issued - Received

7 Press

Issued	Received	Pending
150	100	50

Days in this stage: 2

Pending = Issued - Received

8 Ready Inventory

Ready pieces
100

Ready bundles 5
Held lot-wise
(sample: 20 pieces per bundle)

Issued = given out to the karigar or stage. Received = came back finished. Pending = still out.

Data entered by: the Munshi, at every step.

TO CONFIRM
Owner can view only?

What is included, and what is not

PROPOSED SAMPLE DATA

Only what you asked for. Nothing gets added without your OK.

Included

- ✓ Fabric Inward
- ✓ Lot Creation
- ✓ Cutting
- ✓ Stitching
- ✓ Button / Kaj
- ✓ Finishing
- ✓ Press
- ✓ Ready Garment Inventory (lot-wise stock)
- ✓ Lot management: number, design, total pieces, stage, location, time in each stage
- ✓ Karigar management: details, rate, material given and returned, wages, advance, payment, balance
- ✓ Dashboard with 7 items
- ✓ Reports in Excel: lot-wise production, worker-wise payment, costing, ready inventory

Not included

- ✗ **Dispatch**
- ✗ **Size tracking**
- ✗ **Anything not on your list**

The software starts at Fabric Inward and ends at Ready Inventory.

TO CONFIRM

Anything else you need?

If something is missing from the left side, tell us now. We will list it separately and ask for your approval before adding it.

Lot register and Lot detail

PROPOSED SAMPLE DATA

Left: all your lots in one list. Right: one lot opened up.

Lot register

Search lot or design

+ New Lot

Lot no.	Design	Total pcs	Stage	Location*	Days here
LOT-0001	D-101	500	Stitching	With Karigars A, B	6
LOT-0002	D-205	300	Stitching	With Karigar D	9
LOT-0003	D-310	400	Cutting	With cutter	2
LOT-0004	D-120	200	Ready	Ready stock	-

* Location: what it should show is to confirm (page 10, question 5).

TO CONFIRM

What does Location mean for you?

Floor, table, karigar, or an outside worker? We have shown 'with karigar' as an example.

Lot detail

LOT-0001 **Stage: Stitching**

Design D-101 Total pieces 500

Location*: with Karigars A, B

Stage timeline

Stage	Issued	Received	Pending	Days
Cutting	500	500	0	2
Stitching	500	320	180	6
Button / Kaj	320	200	120	4
Finishing	200	150	50	3
Press	150	100	50	2
Ready stock		100		

One row per stage. Days are counted from first issue.

The munshi's daily entry screen

PROPOSED SAMPLE DATA

One simple screen to record pieces given out and pieces received.

New entry

Date: 21-10-2026

Lot: LOT-0001 v

Stage: Stitching v

Karigar: Karigar A v

Entry type: Issue | **Receive**

Pieces: 40

Bundles (automatic): 2

Bundles are counted for you. The munshi never counts them.

Save entry

There is no size field. Pieces are counted only as numbers.
Every entry carries the date, time and the munshi's name.

Today's entries

Time	Lot	Karigar	Type	Pcs	Bundles
09:10	LOT-0001	Karigar B	Issue	100	5
10:30	LOT-0002	Karigar D	Issue	200	10
11:45	LOT-0001	Karigar A	Receive	40	2

After saving the new entry

Karigar A, LOT-0001, Stitching

Issued 200 **Received 150** **Pending 50**

LOT-0001, Stitching (all karigars)

Issued 500 **Received 320** **Pending 180**

TO CONFIRM

Bundles

How do you make and number bundles? We used 20 pieces per bundle as an example.

TO CONFIRM

Shortage, rejection, rework

Not shown until you tell us how you handle them.

Karigar details and account

PROPOSED SAMPLE DATA

Each karigar has a card and a running account of work and money.

Karigar card

Name

Karigar A

Mobile

98765 43210

Type of work

Stitching

Rate per piece

Rs 12

TO CONFIRM

How do you work out wages?

Example used: pieces returned x rate. What is cut for rejected or short pieces? How are advances taken back?

Account of work

Date	Lot	Work	Given	Returned	Pending	Wages Rs
12 Oct	LOT-0001	Stitching	200	150	50	1,800
14 Oct	LOT-0002	Stitching	100	100	0	1,200

Money

Total wages	-	Advance	-	Paid	=	Balance due
Rs 3,000		Rs 500		Rs 1,000		Rs 1,500

Balance due = Total wages - Advance - Paid

Date	Type	Amount Rs
10 Oct	Advance	500
18 Oct	Payment	1,000

TO CONFIRM

Same karigar, many jobs?

Can one karigar do several stages or lots at the same time? Page 10, question 7.

Ready Garment Inventory

PROPOSED SAMPLE DATA

Finished garments, lot by lot.

Lot	Design	Ready pieces	Ready bundles	Ready since
LOT-0001	D-101	100	5	20 Oct
LOT-0004	D-120	200	10	15 Oct
Total		**300**	**15**	

Ready pieces

300

Ready bundles

15

Bundle size in this sample: 20 pieces.

TO CONFIRM

Bundles

How many pieces are in one bundle for you, and how are bundles numbered?

TO CONFIRM

How does ready stock go down?

Dispatch is not part of this software. When garments leave, how should the stock figure be reduced, if at all?

Owner dashboard

PROPOSED SAMPLE DATA

Seven things the owner sees at a glance.

1 Active lots

3

LOT-0001
LOT-0002
LOT-0003

2 Pending pieces at every stage

Cutting	150
Stitching	380
Button / Kaj	120
Finishing	50
Press	50

3 Material with karigars

Karigar D	200 pcs
Karigar B	130 pcs
Karigar C	120 pcs
Karigar A	50 pcs
Others	250 pcs
Total	**750 pcs**

4 Ready bundles

15

300 ready pieces

5 Lot-wise costing

Lot	Total cost Rs
LOT-0001	53,000
LOT-0002	31,100

Sample heads: cloth, wages, other.

TO CONFIRM: what costing should include

6 Karigars' dues

Rs 5,000

Karigar A	Rs 1,500
Karigar B	Rs 2,400
Karigar C	Rs 1,100

7 Days a lot has been stuck

LOT-0002	9 days
LOT-0001	6 days
LOT-0003	2 days

Days since the last movement

TO CONFIRM

Who can see this?

Only the owner, or managers too? And what number of days should count as stuck?

Reports

PROPOSED SAMPLE DATA

Four reports. Each opens on screen and downloads to Excel.

Lot-wise production

How many pieces each lot has issued, received and pending at every stage.

Columns: Lot, design, total pieces, stage, issued, received, pending, days in stage

Download Excel

Worker-wise payment

What each karigar was given, returned, earned, advanced, paid, and is owed.

Columns: Karigar, work type, rate, given, returned, wages, advance, paid, balance

Download Excel

Costing

The cost of each lot.

Columns: Lot, design, total pieces, cost heads (to confirm)

Download Excel

Ready inventory

Finished stock lot by lot.

Columns: Lot, design, ready pieces, ready bundles, ready since

Download Excel

TO CONFIRM

Excel files

Which columns do you want in each Excel file? Tell us on page 10 or in the meeting.

Please confirm

PROPOSED SAMPLE DATA

Your answers decide how we build. Short answers are fine.

1. **When cloth arrives (Fabric Inward), what do you write down today?**

2. **What is a Bundle for you? How many pieces, and how do you number it?**

3. **How do you work out a karigar's wages? On pieces given or pieces returned? Do you cut money for rejected or short pieces? How do you take back advances?**

4. **What should Lot costing include: cloth, wages, other costs?**

5. **What does Location mean: floor, table, karigar, or an outside worker?**

6. **What happens when pieces are short, rejected or need redoing? Can a lot be split or joined?**

7. **Can one karigar work on many stages or lots at the same time?**

8. **Who will use it, on a computer or a phone, in Hindi or English? Is internet always available? Do you have old registers or Excel files to bring across?**
